p 10. Petition of Wm Bull for himself & 44 others about a tract of land West of Sheffield, which Robert Livingston Esq was endeavoring to annex to his manor — many have settled there by his encouragement — 20 of names on list are actually settled there — have to pay heavy rents to him, are never like to have the gospel while his tenants — believe we are in Massachusetts — Desire a grant — of 5¾ miles on Connecticut line, 8 miles north & South, — north line 4½ miles — very mountainous.
Among petitioners, Josiah Loomis, Wm Webb, Thos Loomis David Owen, &c Many of them Dutch.

Oliver Patridge viewed the lands, & reported Oct 1751
Committee reported to house that they [illegible] the land with others 45 in all, if they settle on land within one year, in 2 years build a meeting house, & settle an orthodox minister in 5 years — 1/47 of land for first minister, & 1/47 for ministry (G. Court did not grant probably)

Mass 4/176 Towns between Westfield & Sheffield —
G. Court ordered Jany 15. 1735. that there be 4 townships between W. & S. contiguous to one another and to join Sheffield or the Township granted to Suffield — 63 lots in each — 1 for Ministry — 1 for 2 Ministers & 1 for School & 60 for 60 settlers — Grantees had to purchase Indian rights of the Housatonnuck Indians — & so had their bounds enlarged Dec 7. 1737, viz No 1. 2. 3. & 4, and each to have 67 settlers instead of 60.

1750 Jaber Ward, Propr. Oct 8 for No 2. reported names above admitted into No 2. 47 in all — some settlers, some not,

Committee proposed that 85 persons should receive lots confirmed to them, who have settled under Lamb & Co – first grants generally 100 acres each. Rev. John Harvey was one. They to pay to public Treasury in two years 500 £; also 6s. 11.9 for expense of Committee. each his part of said sums according to his grant. If not paid, lots to be forfeited which have not paid. All charges at present to be laid on lots according to acres. Some had right to after-divisions – they to pay double. They to build a meeting house & settle a minister within 2 years. – Report adopted. Rev John Harvey settled 1734

28. Palmer, or Elbows, Irish settlers came over some, 1727.
First claimed by the proprietors of Lambstown, who included under their Indian deed of 1686. all town now Barre N. to Quaboag river in Warren. S, covering Hardwick & parts of Ware, Palmer, Brookfield & Hamon.

In 1727 Settlements were made in Palmer, under permits from the Lambstown proprietors, by emigrants from N. of Ireland. The Government did not admit their right & in 1732 they petitioned G. Court. say they dwell on land between Springfield & Brookfield, Brimfield and land called equivalent land & Cold Spring. Were encouraged to settle them by Joshua Lamb & Co. Now find Lamb &c. had no right. request compassionate consideration; that the tract may be granted to them or they just under such regulations as are reasonable.

Committee appointed to view, &c Nov. 1732.
Report of Committee who had viewed the Elbow tract — found it 17,014 acres, as 5 miles square & 1014 acres over. exclusive of some particular grants — bounded E. in part on Brookfield W. line, from N.W. corner line runs S. 2° W. to Quaboag river alias Chicopee; thence up Brimfield as river runs, down to where Southend line of Equivalent land, called Cold Spring crosses or skirts to the river; ~~then W. on said Equivalent land~~ thence bounding northerly on said line as it keeps east by needle to S.E. corner of said tract or Cold Spring Township, which is the mouth of Swift river; thence bounding W. on said tract as river runs to S. line of another tract of equivalent land, 10,000 acres, belonging to John Read Esq. then bounds E. on said Read's land as the line runs E. & by N. to S. E. corner of said Read's tract about 18 rods S. of river called the Ware river; thence bounding W. on E. side of said Read & N. by needle it runs, until an east line will strike N.E. corner tree of Brookfield. —— Greater part of said land is fine land — high hills & low vallies, hills poor & mean vallies pretty good, lies in a broken form; ~~part~~ particular grants have taken the best of the land, & excessive Numbers of settlers difficult. About 80 persons have settled & are about to settle on the tract; most have families & built houses, made improvements — have had a minister over 3 years. 48 persons settled by encouragement from Lamb & Co; ~~et~~ had contracts with Lamb & Co.

Greenfield petition by Committee Oct 5. 1756

p. 19 / 21

Having felt the distresses of war — stood our ground in last war — at peril of lives & estates — our condition is lamentable —

We are 3 miles N of Deerfield, & no town between us & Canada, the space between Colerain & Hatfield being 8 or 10 miles. Our general field is about 5 miles surrounded by a thick swamp — inhabitants live at S. end of said field. The line of forts affords us but little protection. One man was killed and two taken from us last summer by the Indians — 32 of our inhabitants have left us since war began. We have now but 42 men in the place that may be called inhabitants, though we have 192 souls in the place. Many of those left in G. cannot live on their own places — 12 families have been driven from home & live in others houses — cannot labor in the general field without a guard — We have had but 8 soldiers to guard our town and laborers this year — Alarms often call us off from labor, & much time was spent in scouting this year —

Pray for relief — for exemption of taxes, and for help to build fortifications — we have only picketted houses now — pray for soldiers that some inhabitants may be soldiers.

Signed by Benj. Hastings, Dan Nash, Ebenezer Wells.

Granted Feb 23. 1756 — that Greenfield be allowed 12 £ to build a fort for fortification under command of Elijah Williams Esq.

p. 278. petition of John Morton & Nathan Dickinson
Statement Dec. 1759. — 6 large pages full.
Hadley 263
They state how lands were laid out in 1702-3.
Had. 2 p. 340 much of the Controversy 1762
Two tracts 6 miles long & 40 rods wide were reserved for highways forever — running parallel, 3/4 of a mile apart, & dividing the District into 3 great divisions — Monuments were erected at the corners of the lots, but it being a long time before the place was settled many of the monuments decayed, & were destroyed by fire & other accidents — many cannot now be found — The original surveyors did not always run strait lines, but curved & varied in some instances, though keeping the same general course. The reasons for their doing this are not on record, and we know not what others were except as we gather them from the face & situation of the lands. J. M. & N. D. complain of the injustice of these lines claimed by the town but at the place where the greatest curve is made, if the lines of the 40 rod highway had been continued straight, the highway would have been laid across a swampy quagmire, 2 rapid rivers and steep banks — by inclining westward they brought the highway upon sound land. They gained their old course by gradually inclining to the east. They made a curve at the west end of these lots too, to make the proprietors good. This other variation was evidently made on account of the ground. The ancient measure of lots was good & a little over — some surplus.

Each proprietor had a draft in the western or Middle division, esteemed equally good, and another in Eastern division, not so good. Settlers were on 1st and 2d Divisions, & only 1 or 2 on the third division, viz John Morton. John Morton by his turbulent disposition has cost the town more than his whole estate would compensate. — In his first settlement he encroached on the highway — promised to remove his fence back but never did — sold this land & removed south west in same division, & put up his house, not only forward of his lot, but even on the west side of the 40 rod highway, so as to enclose the whole 40 rods & cut off the highway.

Amherst — continued.

John Morton pretended that the land left for a highway lay still farther west, though no bounds were found, & no testimony to support his assertion, but testimony to the contrary. Hadley commenced a suit against him, and also against Nathan Dickinson, who now became his accomplice, in obstructing the highways. They engaged (J. M. & N. D.) men learned in the law and the affair has been agitated at the Inferior Court since 1746. Men were chosen to whom the subject was to be referred, & Morton agreed to abide their judgment, but when they came he refused to submit the case to them — In 1756 they complained of Hadley for opening a highway across their lots. The complaint was prosecuted. They next petitioned the Gen Court for a rehearing, & it was granted. This complaint was continued from Court to Court till Nov. 1757, when on moving their attorney, it was left to referees, 5 in number. The gentlemen spent 6 days in viewing the ground, hearing evidences, measuring, &c. and had the aid of Col. Worthington and Maj. Hawley. The referees were fully satisfied that the land in controversy belonged to the town.

They then consider other parts of the petition of J. M. & N. D. Speak of an original boundary called the Dickinson Tree, which they J. M. & N. D. say is not an original bound. The Amherst men say this is certainly a true boundary — marked N. D. for the original proprietor — has long been a standard to decide controversies. There was a tree near Morton's house marked T. N. which corresponded with the Dickinson tree. Also heaps of stones which have disappeared since the controversy commenced, as well as the tree T. N. Dickinson built his house 50 rods from what he now calls the highway — evidence enough that he did not then suppose that his lot extended to where he now claims.

Pray that their petition (J. M. & N. D.) may be dismissed

Westfield. Petition of owners of settling lots

Page 28 29 30 52 May 1762. Say that the township was granted ★ Boston & called 30 in Township No. 3 — in 1741 was owned by Josiah Stoddard and 6 Worldell & Philip Livingston & they proposed Mr Livingston to give away or sell at a moderate price 60 hundred acre lots for 60 settlers, ... expecting he would supply them with Dutch settlers. He came with a number of them to view the lots then laid out, which we now possess — they refused to take them as a gift unless they could have 100 acres when they should choose. Your petitioners then came to view the land, several of them, & sent 3 men to Albany in 1742 to agree with Livingston for 40 of the Dutch deserted lots. They returned & said they had bought & given their bond for £ 60 sterling to £1000 Land but 120 K part of what Boston got for whole township & they were obliged to do 1/3 of the duty of the whole township according to grant Petitioners determined by a lottery which were their 40 lots. In 1743 they came & began to make improvement, but in the fall (of Stoddard) informed them there was danger of a war with France, & they went off — & did not return till 1749 when our clearing & grinding of 1743 was by little or no advantage as the young growth had covered the land. We had scarcely got off this young growth when we were alarmed by Indian mischief at Housuck & Stockbridge & war commenced. We quitted our possessions & the township except a few families for bread were paid by government as they knew not where to go for better. We did not

We are very low and not able to pay for preaching, province & county taxes, & the rates for fund in our meeting house towards what we have already raised 180£. We have done little for ourselves, but much for the owners of the other lands; by our first purchase we gave them more than the whole township cost them; by our means 400 acres of their lands will fetch as much as the whole town cost them; some their lands sold for nothing less than 18/ an acre, all taxed 20/ in August 1761. 20,000£ O.T. was offered for 1/3 of the commons, & refused.

Our simplicity & inexperience in our first purchase we acknowledge - we had better given up our lots as some others did, to the proprietors. In some years the proprietors found purchasers of like imbecility with ourselves, & disposed of the other 20 lots. These men are joint petitioners with us — Pray for tax on lands of Col. Stoddard & Wendell & the first purchasers for hiring them to support preaching & roads.

Solomon Stoddard replied May 1774, for reasons of Jno. S. &c. that W. & L. conveyed by deed Nov. 1. 1742, 40 settling lots, to Jos. Root, John Lee and John Huston, on condition they should make a settlement upon each lot the next Spring or summer & continue the same 4 years, so that there should be 40 families at end of 4 years; if any should not settle, they were to leave it at the choice of the owner to purchase — as Jacob Wendell was to perform, & Boston by fundamental. Said grantees did not begin the settlement till 2 or 3 years after the war was over, nor have they yet fulfilled the conditions they agreed to — they have cut down & destroyed the timber (which they had a right to do by deed) on said lots, & dug stone (which they had a right to do by deed) from said lots — and have also cut large quantities of timber from said lots to prevent damages of this kind were often threatened & actually put in force by said Stoddard &c. Said settlers have but lately finished the meeting house — the seats they have sold to such as would buy them, & many that are not settlers

but the inhabitants have any right in said meeting house — and great disputes have arisen — before said action was tried, and theirs agreed said settlers, that if they would allow all in the town an equal right in the meeting house, & also them for damages to their timber &c. they would settle the action. The settlers refused.

Springfield Dimpled.

Springfield first Parish. Petition May 1793.

Say the inducement to settle Springfield in 1636 was the interval called Great Field on the west side of the river — being new & in the wilderness, they fixed their dwellings on the East side, opposite said interval — Many years after, some persons removed to west side & live in neighborhood of said Field. Allowed they were made a parish, but were to tax only the lands belonging to said West side inhabitants.

Wilbraham is set off. There now are 5 parishes in Springfield, 2 on west side, 2 on East side. and Chicopee parish on both sides. They all have 803 rateable polls, of which 427 are on East side and 376 on West side!

Some years since the West side desired to be a town, but the East side declined the division. Since then a few years our peace has been interrupted by disputes which have increased to great heat & confusion — so that at last March meeting the town spent 4 days in choosing town officers.

They finally agreed that a division of the town was necessary, & agreed to refer the matter to an impartial committee to decide how it should be done. Committee were Erastus Wolcott of Windsor Wm Williams of Hartford, Jos Woodbridge of Montague — Said Committee made their report in writing. The Town refused to accept the report by a small majority — Pray that the town may be divided according to their report of the Committee.

that said proprietors made the divisional line
of said town. In 1765 said land grants were
made a town, by application for said purchasers,
& no by petition of any of the inhabitants to
that end. In 1767 a meeting house was set up by
said purchasers on the west side of Moose Moun-
tain merely to accommodate their settlers in
west part of the town, where all the settlers under
them then dwelt except one.
In 1765 8 or 9 families were settled on the
Grants, and the number has since increased
to a Division of about 35.
Since 1767 the town has given 50 towards
finishing the meeting house, & in 1770 settled
a minister and given him 70£ for a settlement
and engaged to give him 60£ salary.
But there are now but 6 families settled east
of said divisional line, under said purchasers,
all the rest being on the Grants. That said
meeting house & minister are of no use to those
settlers on the said mountain they living from
5 to 8 miles from said house.
The tax 180£ in 1768 for town charges fell 2/5 of it upon
the settlers on the Grants. These petitioned the town
to have a proportionable part of the former laid on
their side of the Mountain as they had given part
for settling a minister & paying his salary. This was
granted for 3 years but since July last (1772) has
been denied for the future.

Sept 1739. [illegible] to them about 60 or say ten pounds were given to them about 80 in number. They were to build & meet now & settle a minister in 2 years. Most the inhabitants were people from Ireland; they proceeded the next year after the grant to call Rev. Wm Harvey also from Ireland, for their minister. They ordained, & three other minister (Irish) only one of whom belonged to this province who met at the Convention and ordained Mr Harvey, calling themselves a Presbytery & pretending to be invested with authority from the Church of Scotland, and not holding themselves accountable to the churches of this province. The English of the Plantation were dissatisfied & protested against the call &c but could not hinder the ordination. Several ministers & the neighboring churches were present and protested against the proceedings & said Harvey had not had a fair trial as to the charges against him especially that of drunkenness. The ordainers promised that if he was guilty of that or any other crime, they would depose him. Yet after 5 years taxing our lands to support him, complaints were made to said presbytery against him for repeated instances of drunkenness &c; and other grievances - these complaints were received but no hearing or trial could be had till June last. Then 3 young ministers his countrymen but not his diocese, some lay elders came to the Plantation, proceeded to hear the complaints. They received the most material witnesses upon oath & fully declared that he was guilty of some offences charged upon him, but they gently & slightly rebuked him & continued him in the ministry. They acquitted him of drunkenness against the clearest evidence. The Grand Jury of Hampshire had presented him for drunkenness & he was convicted thereof at Northampton about 1738 by his own confession, before the Justices of the Court of Sessions, & a record thereof was made, & a copy was given to the Dominies, but they disregarded it.

Not more than 4 families live 8 miles from meeting house
and only two in this parish, and that; through 8 miles
from our meeting house, are nearer two other places
of worship, than they are even to the place where they
usually go to their meeting house —

They have had preaching for 2 winters past, & some
15 or 20 years ago. This preaching last winter was
paid by the whole parish — They ask for extraordinary
bounds — about 11 miles E. & W. & about 6 miles N. & S.
We know not why they extend so far east, except to
include the 4 or 5 families before referred to, and
some improved land belonging to first parish — and
to include a good strip of land next to ours and common
about 6 miles from Con. River. We think said
strip, together with the Commons, will in a short
time make a good parish, as several settlements
have been made on the commons.

Ware River Parish — Petition Nov 20. 1752.

41. 83. 99. Speak of great grief & calamity — anguish of spirits, bitterness of soul, &c. our eyes are dim by reason of sorrow, &c. Darkness is set in our paths — have piety on us — — and remove the tax set on us last year that cannot be gathered among us and that laid this year. We need help from the Province (instead of paying it) to get through the charge of settling a minister, for we now have our minister 1½ years salary & all his settlement, Coldspring & Hubbin are better off than we are yet muddles on the tax bill; the land is not our own — 2 places in the county in better circumstances than we pay no tax at all — Pray for relief from taxes — Signed by Jacob Cummings (Parish Committee, some one else to sign) Jno Davis (Parish Com.) Benj. Lull (Parish Com.)

(Collection of Province Tax suspended for the present. Dec 8. 1752.

Baptists. Many petitions from them — they complain of being taxed to support other denom — Claim privileges of the charter of 1692

p. 80b 84 85 Say in a general petition May 1754 — say the Baptists were harassed & oppressed with ministerial rates from 1692 to 1728 — were imprisoned, & their cattle swine, horses, furniture &c. were sold, often at ¼ of value many persons almost ruined. The storm raged with vehemence about 1728, not only against us, but against Quakers, seven sons & workmen — 4 Baptists were brought from the country — & put in Boston Jail — Gov. Dummer released them — Baptists & Quakers once again petition for relief, and after some time the Act to Exempt Baptists & Quakers from being taxed to support ministers was passed. But this act which passed 1 & 2 year of this reign exempted polls and not estates, & was limited to persons living 5 miles from place of meeting & called by some the 5 mile act. Petitions of Baptists & Quakers were renewed, & they the extend to carry their complaints to England. A 2d Act was passed 1729, exempting both polls & estates, but limited to 5 years. In 1733 & 34. Baptists & Quakers again had to petition; Gov. Belcher was always our friend — as well as Gov. Dummer — In 1734 a 3d Act was passed better than either of the other acts, to continue 5 years, but we were troubled under this act, owing to assessors not doing their duty to Baptists notwithstanding — Petitioned again at end of 5 years, and a 4th Act passed about 1740 for 7 years

Baptists cont—

In relief of Baptists, but Answers ill injured us in many places by their neglect of doing their duty

In 1747 An act to exempt Quakers & the 4th act to relieve Baptists was continued for 10 years. This was done for a just time by the good will of the General Assembly and by our petitions.

We then expected peace; but in 1753 an act in addition to & formerly was passed, in which it was enacted that none should be returned as Baptists the exemption except those whose names should be on the Assessors list as such; or those who shall produce a certificate from a minister & principal members of such church, stating that such persons are of their persuasion & usually and frequently attend public worship in such church that no minister should be so returned an Anabaptist minister, except he also should obtain a certificate from 3 other Anabaptist churches, that they believe such a one to be an Anabaptist. Certificate to be lodged with Town Clerk, &c.

Now in Threatening times in England when there is a higher Tribunal than ours to complain to, such additional act, as seems violative of religious liberty — where shall we find the first 3 authenticated Baptist churches? say the Congregationalists and Presbyterians as well as themselves — After better deliberation Methinks Watertown, Sturbridge & Boston jail begins to be a receptacle for country Baptists who refuse to pay ministerial taxes

Eleazar Carter of Medway was brought 27 miles from his home & committed to Boston jail 10th April last, and not long before Jesse Holbrook of Bellingham was committed to same jail for like offence; both constant worshippers with Baptists.

Province Law act passed by Gov. Council & House (Governors absent) may be repealed, & a new act passed effectually to free all Baptists from ministerial taxes.

There is a long, able memorial, dated at Boston May 29. 1754. It was signed by Thos. Green, Thos. Bowdoin, Ebenr. Moulton, Eph. Bowdoin, Jos. Collins, Philip Freeman, Jos. Gould, Thomas Cheney, Joseph Proctor, a committee appointed by several societies of Baptists.

It was discovered as containing indecent reflections, Nov. 1754

Stockbridge. Letter from Rev. Jonathan
p. 77 Edwards, dated Oct 22. 1754, or rather petition —
He says the murders committed at Stockbridge
on Sept. 1. 2nd Lord Day, by our savage enemies,
occasioned a great alarm in the neighboring
towns & in Connecticut, the first report being far
beyond the truth; the town was soon filled
with a great multitude of armed men —
& they continued to flock here for 3 or 4 days —
They came to defend the English & expel the enemy.
They came without provisions, & the people of Stockbridge
had to provide for them. My house being in the
middle of the place, great numbers thronged thither —
I was confined by sickness, & not able to take an
account of expenses, but my family endeavored
to keep an account; we judge that not less
than 800 meals of victuals were provided for them —
and the keeping their horses was equal to 150
horses for 24 hours, pasturing; and we expended
7 gallons and 1 quart of good W. I. Rum.
It was judged necessary to build a fort immediately —
my house was taken to build a fort about,
& during the building, it was unavoidable that
I should make some provision for the laborers —
We expended in this way 180 meals of victuals.
They used to build the fort 15 rods of new log fence
which cost me 10 s. per rod. old Tenor.
Poor people, driven from their settlements, one also
entertained at my house — driven through fear of the
enemy.
Prays for allowance.

Ware River. Petition of heirs of John Read, Feb. 1755

68. 34. 41 83. 01 83

Say—in 1716 John Read purchased 10.000 acres of equivalent lands at Swift & Ware Rivers at an expense of about 100£ sterling, free from all obligations of settling &c. After 2 or 3 parcels had been laid out; in 1742 upon petition of Thomas Mersh & others who dwelt on lands bordering on said Reed's land, together with 3 or 4 more who dwelt on said Reed's land, being in all about 53, the Genl Court made them a precinct—in 1745 said John Read gave them by deed 100 acres as a perpetual glebe to found a church there—in 1746 he laid his land out in 100 acre lots & called it "Manor of Peace". in 1746, 47 & 48 he executed above 40 leases whereby most of the present tenants now hold being over 30; allowed each lessee to choose his & to take a lease for 3 lives whom he pleased to name, at 5£ current money rent, as it should pass at the times of payment, for 99 years for 100 acres.—In 1751 when they had provided a minister (that is, the precinct) we (the heirs of John Read) gave them minister towards his settlement one of the best 100 acres on the manor—and as they had many expenses, we asked no rent of the tenants in 1751. 52. & 53, nor has any rent been paid since 1750. except by assigns of Henry Dwight, Esq. upon an ancient lease, nor has ⅓ of the sums covenanted in the leases ever been paid except as above—We are ready to do all that is reasonable towards the ministry in said precinct but not what is petitioned for.

Ware River (continued.

– The parish is now destitute of a minister for which they ought to blame themselves. The tenants on the manor are more than half the parish.

Sur. 279 Says his bounds have been encroached upon by several persons & province lands they claim 2 or 3000 acres of said manor.

He says there was a petition ~~not taken~~ in 1750 subscribed by 40, most of the inhabitants of the manor, praying the G. Court to grant them the lands. This is more modest – yet this tax petitioned for on the manor lands would amount to near 200£ lawful money in 3 yrs – more than enough to settle a minister build finish the meeting house. It is strange the precinct could support a minister in 1742 (as they said they could) when only 4 or 5 persons were on the manor, & now cannot do it with above 30 on the manor, & the others considerably increased.

(A handsome, well written petition, signed William Read.

The petition attested & preceding is a rep[ort] by, is signed by Jacob Cummings on Ware River parish Oct 1754 & say they are few & poor – have done all we could in settling a minister and building a meeting house – are now destitute of a minister – are not able to settle one & pay for 1/4 d. but are ready all lands in the parish, to finish the house & settle a minister.

Petition dismissed Feb 20 1755

Manor of 10,000 acres, as pointed out to me by Jacob Cummings Esq. went a mile or two with the river in valley to N.E. corner was some distance from river, not off it, perhaps ½ a mile or more. East line came on to or near the river & S.E. corner was some distance east of Ware river. Same land both sides of the river & that was not in Reeds manor – probably did not cross river till river ran nearly Westwardly. See South line p. 279.

Sayeth there was controversy about meeting house and certain part without a legal vote proceeded to set up a frame within 1½ miles of east end of the district, or thereabouts & have covered it in part — The Major part, called a meeting voted to send to this Court for a Committee to fix a place &c. Committee came & fixed upon a spot, & we pray that it may be established and confirmed. East part are doing all they can to hold the house they have set up in that place, & make all the distress they for it, & have many Baptists on their side three of the assessors being Baptists & Selectmen are on their side; when we applied for a meeting to get a vote to build a meeting house, the assessors put us off from time to time. A majority of estates are against their house, and of votes, & if we could get a meeting we could vote to build a house. But Assessors made a new valuation & set up voters on their side & disallowed some of ours and made a majority on their side — they then called a meeting & negatived our motion to build a meeting house. We then proceeded to clap the frame of a house on the place fixed upon by Committee, for whole district which we wish to have confirmed. They have had a meeting & voted, by aid of 3 or 4 Baptists, to raise 100£ to finish their house, which we protest against. The Assessors have hurried & made a tax upon the inhabitants of the money so voted with 60£ more, before voted for the east-most — pray that a stop may be put to this — pray also for a land tax to build our house. They have voted that all the preaching shall be in their house, & one senior Baptist says he will have a Baptist settled in that house in 2 years.

Baptist Church in Ashfield constituted June 1761. Minister ordained Aug 20 1761 viz Eben Smith, by Revs Jonathan Alden, Ebenezer Jacob, and two private brethren of Sturbridge. The Baptists were at that time a majority in the town & were about building a meeting house when the same in town power was in voting &c — settled a minister & built a meeting house, & put them minister in possession of the lot of land appropriated for the first settled minister, though there was not the first we have been forced to pay 10£ upon each right, chiefly the ministerial & meeting house tax — and a tax of 150£ mostly for that use & another year 1769 raised a tax of 50£ wholly for that use & have posted our lands for sale. We have three petitioned & got no help.

say Baptists cannot plead natural rights, for they are superseded by civil obligation in this province; in taxation, individuals cannot plead them. The idea of injustice in taking away their property because they are unwilling to give it, will, if admitted, exempt all men in the province from taxation, if they should dislike how they then are. The question is, whether good policy requires the holding these men under their civil obligation, or the releasing them & restoring them to a state of nature? These people about us who have assumed the name of Baptists were originally Separates, so called. The causes of their Separation are such as these; — with some an unconquerable desire of being teachers; or privilege they could not have without separating, setting up a meeting of their own, regulated according to their peculiar taste. Others are gone off on account of disgust or prejudice against the ministers or some of their brethren, which their virtue and sense overcome. Some left because they were guilty of offences which exposed them to discipline. Some

— said the standing ministry was corrupt, the ministers unconverted & the churches impure — in a word, these meetings or them is have been a receptacle for scandalous & disorderly christians, & may be considered as a sink for for some of the filth of Christianity in this in this part of the country; and on this account do they merit, (if this be meritorious.) Pure pride, vanity, prejudice, impurity & uncharitableness seem to have originated & supported a set of pure they cannot communion with ordinary christians. We however candidly suppose that some & then people were influenced by good & pure motives, but by their connections & combinations have forfeited this right to a charitable judgement. It has ever been found that these people have no stability, and their covenants no perpetuity. Some after entering into covenants, have broke to pieces, & formed anew three or four times in about 30 years — & now one of these Baptist Societies, whose number collected from several towns amounts to only 70 male members or thereabouts, is divided into 2 parts, one to pure for communion with the other. These Separatists have lately collected their broken numbers into a Baptist or Anabaptist Society or church of which part have gone off as above stated.

It belongs to the Justice of the legislature to protect all regular religious societies / protestants, of all denominations, but they ought not to encourage such as cannot answer in any tolerable sense the valuable ends of religion to this Community. The legislature should attend to any religion or profession that wears an ill aspect to the state. Of this kind is that religion that rejects men of learning & ability for teachers, & chooses illiterate men of ordinary abilities. Its evils need not be pointed out. One evil of it is a kind of poisoned enthusiasm which perplexes and endangers the churches. This is the religion & the people we have been describing.

Hope no further indulgencies will be granted to Baptists — and that a distinction will be made between those regularly organized, & those only being professed religion, & whose principles are subversive of the ends for which the legislature is necessary.

Now as to the petition. Ashfield was granted to a number of persons for public services — the grantees to settle 60 families

Litchfield proprietors cont.

build a meeting house & settle a learned orthodox minister — other words, a legal minister. Judson was prevented the doing this in the time limited, & no forfeiture has been taken. The monies raised, & which the Baptists complain were chiefly to fulfill the conditions of the grant, & to repair highways. Then people were under the same obligation to raise these monies as the other proprietors, in order to hold their rights. They took their lands on these conditions. If they now dislike them they ought to sell their estates to those who wants fulfill the conditions. They have obliged us to sell their lands & should not complain. By the act complained of, the proprs. were enabled to raise money & build a meeting house, repair ways, & support their minister. This was agreeable to the original grant, by which all were to support the first legal minister till the people supporting him amounted to 60 householders. The act was according to the grant.

When the Baptist lands were exposed to sale, we have tried to prevent the sale, & offered to loan them money to pay the tax, but they always refused. Their representation about the 398 acres &c is not true. There has been only 306 acres sold in all. Great pains was taken to get their value, & those were taken that would least incommode the owner. In burying place spoken of, her had one still born child buried in it, & knew not that the lines will take in that child. Their complaints of our selling a dwelling house, selling ap. apple trees & throwing down fences are untrue. They complain of our selling the lands of the Rev Ebenr Smith, ordained Baptist minister. That there is such a man as Ebenezer Smith is true. That this same Ebenr Smith is a regularly ordained minister in a legal & scriptural & in any commonly received sense of the words, is notoriously not true. He is not a minister according to our laws — has not the qualifications of a minister, except perhaps orthodoxy. He is ignorant — so much so, that in teaching, from that passage which mentions "the thick bosses of C. David's bucklers" he used the word, "butler", and continued to use it so often being cautioned by one present. We do not think he has any extraordinary supernatural light (the governing views in his ordination) we should recommend the regular ministry here, & to gain the Baptists the advantages of the first settled minister.

Ashfield, proprietors — continued

The leader & father of the Separates at Ashfield left the church of South Hadley, among other reasons, because they did not see fit to espouse a quarrel he had engaged in with one of the brethren, for telling a trifling story about his pulling the teeth of his own children to make trial of certain instruments he had been constructing for the purpose. For a number of years they did not pretend to be Baptists, nor thought of refusing to pay taxes with us, but acted and voted with us in the affairs of the propriety. Their conduct then since has shown more of a single kind of weakness than any thing else, in religion. For some time they knew not what they were. Pride & vanity caused them to leave the humble post of modest christians for that of teachers; they exercised themselves in the business till it became somewhat easy — it became impossible for persons wholly at variance & who held such friendly correspondence with heaven, to return to their first station. They remained anonymous until they happened upon the lucky name of Baptists.

Thus stood matters complained of will not be regarded — that damages for lands &c will not be made up to them, &c.

Amherst District. Petition of inhabitants May 1773.

p. 341 Say the district contains a tract about 7 miles long & 3 miles wide — that a precinct was erected in 1735 by name of 3d Precinct in Hadley — that in 1738 a meeting house was erected, and a minister settled in 1739. In 1759 the parish was made a district by name of Amherst with sundry inhab. of Hadley & their farms annexed thereto — your petitioners are mostly those inhabitants of the middle part of said district whose lands are adjacent to said meeting house on each side towards each end of the district — they and their predecessors were the original settlers of East Hadley, built the meeting house & paid the minister, & have borne the greatest part of expenses to this time. Controversy has arisen with the remote parts respecting the building a meeting house — owing to Hadley men incorporated with us, increase of settlers in remote parts, & making their sons voters, they now are a majority; and as we are likely to be oppressed by them we resort to legislative power for relief.

About 2 years ago, it was thought necessary to build a new meeting house. On a motion for that purpose, the inhabitants of the 2 ends united with a design to divide the district into two, making the present centre the extremities, and your petitioners on the extreme parts of the two districts. This proposal was voted by a majority at a District meeting Jan. 13. 1772.

p. 18 It was tried again March 10. 1772 when the voters on each side were equal, & no vote passed. On April 14. 1773 they had a majority, & voted to build 2 meeting houses at the expense of the district, one in middle of each respective district. Nothing has yet been done, but they threaten the speedy execution of their plan. —

Amherst p. 17.

Finding all attempts to accommodation vain & dispairing of Justice, they pray for legislative aid. & go to Boston.

Disputes about Line with Newyork

From David Ingersol, Sheffield July 6. 1753
about Connecticut settlers — says the
Livingston came with 100 men, carts, &c
this day, to Squantuck and Loomis' wheat; the
people meet them to — with their arms
by them & all their wheat will be cut, &c
to Col. Oliver Partridge — Esq. Chandler has also
been out, treating &c

From Josiah Loomis, Taghkanuck July 6 1753.
says the Livingston came with 62 or 3 men
Swaggers & servants, sent off two of his wheat
& carried away, sent down 5 acres of his
Indian corn, two — to do the same at both
Plains. We shall be undone if we
cannot get relief.

From the same Loomis at Springfield July 23.
says he had taken 2 of the men & brought
them to Springfield gaol, shall take
more if he can

From Col. Partridge at the same place July 23

Letter from Sec'y Willard to Israel
Williams in Sept. 1. 1754
Indians had done damage at Hoosuck
— Williams to do what is needful to Defence.

Letter from Col Israel Williams to Sec'y.
Sept 6. 1754.
I sent a scout of — to Fort Massachusetts to know
their state & make discovery — they returned
on Wednesday — Lt. Officers of Fort had taken
to St Loick ("Jonchook") — 17 of Dutch buildings
were burnt, also 1000 tuns Wheat — horses, cattle
sheep & hogs killed, some hogs thrown into the fire —
One man killed & one captured. Damage 50.000£ in
old Currency. Dutch did nothing — but a certain

— went after the Indians — supposed to be about 100. Repd from Albany that 44 Indians more were coming, with 6 Indians each, to attack our frontiers — says the Indians buy arms & ammunition at Albany to kill their people & ours —

Last Sabbath (Sept 1.) a man was killed at Pontoosuck, and one man & two children at Stockbridge. I have ordered a scout from Hallstown to Deerfield river, constantly performed; there is also a scout at Housuck.

Most of the people in the new plantations have withdrawn — a few have shut themselves up in poor forts & picketted houses — The people are under great surprise & fear.

Col. John Worthington to Secretary Sept. 8. 1754.

Letter rec'd from Timo. Woodbridge, of Stockbridge, Esqr. dated Sept 4th says Stockbridge Indians were hunting about Housuck river, the Wednesday before, on August 28, & discovered as they said about 600 Indians who fell to burning the buildings & destroying the cattle on Housuck river. Berkshire Gentlemen were attending Court here. On Monday Sept 2 I rec'd. express from Captains Ashley & Dickenson of Sheffield, that a family at Stockbridge had been attacked, that of one Chamberlain, on Sunday Sept 1. about 3. P. M. He his wife, 3 children and one man named Owen were in the house. The Indians fired immediately on their entrance, one at Chamberlain's wife & missed her, the other at Owen & shot him through the arm. One attacked Owen & the other Chamberlains wife, but Owen being too much for the Indian, the other left Chamberlains wife to aid his friend, & both beset Owen. Chamberlains wife then escaped, as did her husband who came from an inner room, and left the Indians fighting with Owen; Owen fought like a man some time but was forced to yield from wounds, & soon died. They scalped him and killed & scalped one of the children on the spot and carried another about a quarter of a mile

Letters

A Worthington's letter - continued.

Sam being drowned by a party of Indians from Pontoosuck, they knocked the child on the head and mortally wounded it - left it in the woods & it was picked up by those from Pontoosuck.

On Monday evening, I raised about 170 men in Springfield & Westfield, sent them to their relief. They were met by a large number from many parts of Connecticut. Those from thence have returned; such are yet there, will stay 5 or 6 days longer to cover the people & then till they make some fortification.

I have since received intelligence that 42 canoes of Indians crossed the Lake Sep. 25 or 26, with 5. 6. or 7 Indians each, to attack our frontiers.

A letter from Capt. David Ingersol, Sheffield, dated yesterday informs me that Sept 6. a man was shot at by 3 Indians at Pontoosuck shot through his clothes in sundry places - he returned the fire & shot one down (but did not get him); that the same day a man out west of Sheffield was shot at by 5 Indians, and another man not far from that place shot at, but was not heard from when his letter was written; and that seven Indians were seen (enemies as supposed) north of Sheffield Sept. 7. The Pontoosuck people are greatly afraid. They have all left Pontoosuck; & from 80 and 90 I have had repeated applications for men to protect them; I have encouraged them to remain till I see what the Govt will do. hope they will keep their ground. I have sent them 20 men.

Col Williams to Sec J. Willard.

Hatfield Sept. 4. 9. 1754. Have written to Connecticut for aid, in case we should be attacked - A few of Hatfield people have got into Col Shelden's fort, but most have removed. They are picqueting one house at Charlemont where some of the inhabitants still are. They have their families from Pontoosuck, but a number of the men are returned & are preparing for their defence. I am informed this morning that 6 Indians were discovered at Southampton yesterday - a party of 30 men were sent after them. The Indians seem full of fury and malice.

Letters.

Letter from John Chandler. Sept 10. 1754.

Col Williams had sent to him for 40 men from Worcester County — Hd (J.C.) had sent for 40 men 3 companies (14+14+12)

Israel Williams to Gov Shirley Sept 12, 1754

It is now open war, & a dark disturbing scene opening. invaded in every quarter by the Canadians & Indians, pushed only our inveterate foe. The western frontiers call for aid more than any other part of the province. I propose that there be a garrison at Hatfield

another at Morison's, Deerfield

Two at Charlemont

one at Pontoosuck, and

one at Fort Massachusetts

I propose that there be 50 men at Fort Mass. 30 at Pontoosuck; they to maintain a scout from Stockbridge through Framingham and West Hoosuck to Fort Mass. & thence to top of Hoosuck Mountain. 14 men at Hatfield 20 at Morisons, & 12 at each garrison at Charlemont there to perform a constant scout from Connecticut River against Northfield to the top of Hoosuck Mountain. These scouts will cross all the roads the enemy ever travel to come within this line of forts. Some places within the line will doubtless want protection. Some of the men at Fort Mass. should way lay the roads from Crown point.

I would neglect Forts Shirley & Pelham because the Indians were scarce ever known in last war to come down Deerfield River; that road is very bad and almost impassable. Shirley is rotten & if used must be rebuilt. Morisons fort will answer as well & can be more easily supplied. Suggests that a fort on the Top of Hoosuck Mountain between Pelham & Fort Mass. would be useful. Proposes 2 forts between fort Mass. & Hudsons River, (now Hoosuck is destroyed) as there is a large opening for enemy down to the Dutch, and to Stockbridge the Indians & Connecticut — one of these to be garrisoned by Connecticut, the other by New York this line will shut up all between Hudson & Con. rivers.

Letters.

(A. Williams Letter continued.

Thinks garrisoning No 4. (unless N.H. will do it) will not repay the expence - no use in keeping it in defending East side River. Notwithstanding No 4. the enemy can still come down Black River, West River & down on East side of Connecticut without hazard.

(Ch. Stark) design in garrisoning No 4. was that a scouting party might be sent down from there as they very often come from No 4. and 100 men ought to be posted there, 50 of them be at a time. "But he lived to see himself disappointed" Supplies were not furnished, & it was with great difficulty that provisions could be obtained, & then there. If any were lost there & in the way there without doing much good.

An attempt to settle distant places in the wilderness, as it has been carried on, I never thought prudent, & experience will be difficult

Col Whiting Lancaster Oct 10 1754

Had rec'd orders to raise 50 men, in case he thought necessary. Connecticut have sent 28 more to Pontoosuck to remain till their arrival; for this order; I ordered 8 of those that were there, to No 4. between them & Westfield, when 6 of this last detached themselves were much exposed to the

(A. Worthington was Lieut Oct 2. said the people at Glasgow & No 1. were much terrified & wanted to have men. We thought best to send 6 to Glasgow & 8 to No 1; he agreed to raise them from his Regt. Maj. Williams proposed to enlist the men for Fort Mass. would make return. I did not think it best to raise the 50 men.

Indians Stockbridge have been suspected of holding correspondence with the enemy. We hear of no discovery of the enemy of late. Our people grow secure.

Connecticut Clerk of Council, Nath. Stanly
to Brig. Dwight at Stockbridge Feb 12. 1755
Have concluded to send 65 men to your aid.
viz 30 to Stockbridge, 25 to Pontoosuck & 10 to
upper Sheffield, unless you shall order otherwise to
Pontoosuck. People of Pontoosuck are
divided as to place to fortify. Our men will
abide your directions in this point. We
expect you will billet the men, as always has
been done.

Brig. Joseph Dwight to Gov. Shirley
Stockbridge Feb 25. 1755
About Crown Point, &c. The soldiers stationed
at this place are still continued. Supposing they
would be drawn off, I wrote to Connecticut for
40 men for here & Sheffield, to be paid & subsisted
by them. They have sent 65, of whom they have
ordered 25 to Pontoosuck, in room of
their men stationed there, who refused to
labor at fortifying, &c. I was surprised to see
the men come on such terms. However, they
have ordered their men to be employed in forti-
fying both here & at Pontoosuck, when not
on other necessary duties. Dislikes the
billeting at our expense asks for advice about
this and about fortifications. If the Con. Soldiers
will not go further when wanted, & we must billet
them, it will be better to rely on our own soldiers.
Our Indians appear friendly but they are too
unreliable to be relied on for a guard &c. They
may be used for scouts, scalping parties, &c

— example. All agree that you are better able to spare Connecticut than any other of the Provinces. We fear no conquest in any other troops but yours, and it is generally wished that the British veterans under Gen. Braddock were sent into garrison, and New England sent to the Ohio. You can fight from principle and always succeed. The behaviour of the New England provincials is equally admirable and satisfactory. Instead of the eleven companies voted by the troops in 1746, not a farthing was laid out in cloathing, recruiting, or bounties. They have 5 chaplains, & maintain the best order in the camp. Public prayers, psalm singing & martial exercises go round their whole time at Albany. Once a week they have sermons, and are in the very best prepared state for an army; look for success in dependence upon Heaven, by God's concurrence of means. Would to God the New England spirit in this respect were catching."

Many Letters about Braddock's defeat, for some time. Gov. of N.Y. forbid to permit to say a word about it, lest it should get to the ears of the Indians &c.

Hatfield July 29. 1755.

Capt. ordered 30 men out of his co. to wait upon Lieut. Colonel Dwight to Deerfield 16 were out of Col. Ward's & Lt. Burt's Regt.

* Sent 8 to S. Hampton, under 2 Ensigns to Westfield and 8 to Kingsgarrison at Deerfield between Westfield and Northfield (this made the 16. Old 4 more enlisted the 30). Sent to Connecticut and the rest men to Blandford Col. Ashley's Regt. and to Great Stockbridge under Col. Dwight where they had been before. Enemy frequently discovered by runaways. Last week they killed 2 men at Maj. Bellows's garrison, & 2 at Hinsdale, one captivated. The slain were inhumanly butchered. Have an account from Albany that 100 Indians are coming down upon the frontiers. People destitute of grain must perish for want of seed. Hope the want of our forces to attempt will thereby be a means.

Northfield letter, dated June 7. 1756

Deerfield p 101 | Extract from Capt. Field, at Northfield to a friend in Deerfield

says a post from Winchester informs that the Indians have taken Josiah Foster, his wife, and 2 children from the Bow, in Winchester about 10 o'clock this morning, as is supposed, though not discovered, till near 2 hours after this. Both the horses were killed, one left, & supposed to be 6 or 8 Indians.

Elijah Williams received the letter from Col. Thomas Partridge.

Col. Partridge speaks also of mischief by Indians at Fort Wales.

Israel Williams to Gov. July 13 1756

This morning a express from Fort Dummer arrives, & informs that on the 11th near sunset, Mr. Chidester, his son James Chidester & Capt. Elisha Clap went from Block House at Fort Hoosuck to seek their cows — & hearing they were fired upon by a body of French & Indians, and are killed or captured.

Deerfield p 101 | Party of enemy then attacked the Block House, but as yet killed no one. They fired about 100 guns & then withdrew & marched away in the night & carried this to Fort Wales, over by computation 40 or 50. expects to be attacked again in the morning. I have sent no men from hence supposing it would be too late. The garrisons are feeble. The people on the frontiers work in great jeopardy. Many of those militia men have not freely ranged the woods, without pay. I have not received the Gov.'s direction to protect Huntstown with any men. That place might be protected & yet no forces come to stand from other places for that purpose

Israel Williams. to Secy. Saltpt. April 3 1757

Have intelligence from Wyoming that on Good Friday last, Lieut. Hamilton p. 129 & 12 others who were at the mills were either killed or taken by the Indians; the people at the forts issued forth but were driven back by the Indians & they judge by the firing there was 100 or more. The Indians burnt the mills. 7 men of the place were out hunting & making sugar; it is feared they have fallen the enemy's hands. There being much snow, could be easily tracked. The people were in the utmost distress. They had no provisions but the 10 men in Province pay. An express has gone to Col. Loudoun.

Lt Wm Pepperell to Gov Pownal, Stanwix Aug 15. 1757
says Capt Williams & Ruggles are returning — think their regiments will be sufficient for our frontiers, as only small parties of Indians may be expected to attack us — trust Gov Wentworth will well garrison Fort. Great body of Indians gone home.

Israel Williams & Timo Ruggles read Kinderhook with their forces to Gov. DeLancey to know the state of affairs Aug. 12. 1757.

Gov. DeLancey replied Aug 13. that Gen. Webb informed him that 4 Indians Canadians were to go off from Fort Wm Henry the day — Gov. thought they had better join Gen Webb & persuade him to draw the Troops from Ft Wm H.

Williams & Ruggles replied at Kinderhook Aug 13. say they were ordered to aid the forces of Gen Webb attacked by the enemy not to aid in expeditions that may be subject to loss of future time; do not think it consistent with their orders to proceed to Fort Edward, that place not being attacked now in danger of being so. Besides, we have learnt that a large body of the enemy have turned Northward to attack our own frontiers — our duty is to march for their relief

The day then was a horrible massacre of people at Fort Wm. Henry, in their letter to Wm. Pepperel.

This Letter to W. Pepperel is dated Sheffield Aug 15. 1757. Says Capt Harris (p. 126) left Fort Wm Henry April 13th with them. He left Fort 11 days ago, relates about the siege & capitulation.

Lt Wm Pepperel to Gov Pownal Stanwix Aug 15 1757
Thinks there is no use in sending our troops to Fort Edward — the danger will be from Indians on our frontiers. It seems the enemy do not intend to attack Fort Edward. Trust Gov Webb will dismiss the militia of this province as soon as he can with safety.
Think of returning instead of going westward.

Wentworth, Surveyor General of his Majesties woods in America to be aiding & assisting in preserving his majesty's woods, & giving us power to seize & mark all white pine trees & logs that are found cut with the broad ax, & secure them in some safe place, he begged our assistance & told us it had to do with lords, almost every one being against it; yet we marked for his majesty's use 1963 trees & logs in Northampton; but they were all taken away from us but 37, some in the night & some in the day time in open defiance of us & the officers appointed in our behalf. We are threatened if we pursue our orders to be beat, knocked down & killed. We applied to Colo. Hatfield a Justice of the peace for his assistance, but he utterly refused to aid us. He utterly refused to read your Proclamation of July 9. 1763. tho' he said he had not seen it - he said the Gov. did not understand the affair; if he had he would have put out such a proclamation. We then applied to Israel Williams Esq for assistance; he read the proclamation, & said he did not see as he was obliged to give us a warrant to press men, & our assistants understood the affair.

This minister of Apposite was Rev Mr Wroth, a distinguished puritan. Bred at Oxford, he became rector of Llanfechen in Montgomeryshire. Was the first nonconformist minister in Wales. Was proceeded against by bishop in 1635 and driven off in 1639. The puritan strength of Bristol sustained him. He died in 1642. about Mary Lewis.

Humphrey Chapman's letter with Mr. Trot's
Sister, dated 2d-4th-1645, in behalf
of Mary Lewis, the bearer hereof, who
hath lived sundry years with my sonne Smith
& was servant to Mr. Eaton Dorchester, before he
came to my sonne. She wants advice in a
difficult case & advised her to make a journey
to you. She was married in Wales to a
Papist whom she hardly, & hath not heard
from her husband from England, & she thinks not hear
from him these many years, & therefore would take
advice whether if God give her a good
opportunity she may not marry
again. I asked her if she was free from all
entanglements. She said she was & that she
will keep herself so till she have liberty to
marry by the magistrates. Therefore I entreat you
to consult about her case that she may be fully
either bid or stretly tied, or not left in suspense.

I took the testimony of Alexander Edwards
a member of our church this 2d of the 4th mo. 1645

Alexander Edwards doth testify
that when he lived in Wales, which was
about 5 yeares since, he knew Mary Lewis
attending often upon Mr. Wroth's (Wright's, Worth's)
ministry where he also was a hearer; that he
knew her coming often for about 2 years before; and in
that time she did often complain that her husband
was departed from her, & that she could not tell where
to find him; and she did use means in inquiring
him out; & then she could hear no tidings of him.
She was advised by one to come to New England;
and when she refused to come for N. E. Mr.
E. Edwards saith he met her at Bristow, & that she
intended to come when he did; but some thing
hindered her & so she returned back to Wales
again & then upon her husband's (Wroth) advise with
Mr. Wroth (Worth) & that she might do in
the case; accordingly she returned back to inquire
after her husband, & to get further advice in the case.
She lost her passage in that ship that he came in
but she came in Mr. E.'s the same year in another ship,
about 6 weeks after; so that it is full 7 years since
her husband left her. Alexander Edwards also
saith that he often heard her say in Wales that her
husband was a drunk papist & had two sisters
& that she lived in continual doing of his life, for

— he did the liberty to do her evil chief
to be would not be a papist & do as he did,
or else depart from her. And this regard
he saith that Mr Wroth & divers other godly
people did much pity her case.

Mary Lewis also saith that
Mr Wroth entreated Mr Erbury to write
to Mr Blindman in her behalf, to see
her as a sister & see her placed in some
godly family; that Mr Blindman can
remember this passage; that Mr Erbury's letter
is good that she left the land and to all
hopes to find an husband with the advice
of godly ministers.

What further testimony he can produce to
show that her husband hath left her for these many
years, it is likely he will search further. So not
doubting but you will dispatch her & send her home
with such advice as your wisdom will be meeting
to God.

Sir in reference to another case, we find it
is unusual to give liberty for a 2d marriage
but what to advise in this case I rather
choose to leave it to you & such magistrates
as you think may decide the case in full
& so I rest

Capt John Wright had Co from Essex Co. & Maine &c
in Col. Dwight's Regiment.

Col. Worthington writes, Sp. July 23 1756 to Gov. Phips, that he had Orders Dec. April 15. to raise 75 men, April 22. Instructions only as many as should enlist between April 15 & 22. I supposed 10 might have enlisted on those days (of the 60 or 70 enlisted before April 22) so I raised 65 more. — Seems to have blamed & this letter is to explain. Thinks he has done all that could be done, & that the number of men is not deficient, as required by the order, but as there was a deficiency, has ordered 10 men more to be raised — thinks his regiment had more than its proportion before. Says there is a jealousy between the people, & suspects he is ungrateful to the people that he is "not anxiously fearful" of a determination for the painful preeminence". Not aware of any disgrace that may attend it being endeavored to discharge the duties faithfully.

Capt Joseph Holt had a company from Maine — Genl. Waldo, Brunswick &c at Ft. Wm Henry Aug 7. 1756.

Capt Jno. Ingersol of Hadlemont, also had a p. 161 Company, wholly or partly from Maine, at Fort W.H.

Capt Hall Wyman at Fort Mass.
Petition Nov. 2. 1756

Says the fort, or rather 68 feet in length on the south side "fell flat to the ground" in April 1756. owing to its rotten state. That the breech was repaired as well as it could be, as soon as cannon was obtained.

— that the fort is in a decayed State & the N. & W. sides would have given away before this had they not been sustained by posts & braces put in when the repairs were made — that the mounts on which the great guns are placed are so rotten that there is danger of them giving away, if they should be fired.

— that the pickets round the top of the walls are rotten and 1/3 of them fallen down — that the first snow storm may be expected to blow down the barracks, they are so decayed — that there is no magazine for powder & provisions & they are exposed to the weather having only a few slides to prevent damage by storms.

Prays for repairs

Miscellaneous Mss. 1648 1775

June 1760. Sprng. Jud. (thro' J. John Worthington) petitioned for liberty to set up a Lottery to raise £850 a £960 if lawful, to build a bridge over Agawam River, and another over Chicopee River.

May 29. 1685. John Pynchon, Wm. Pynchon and Hon. Major, for themselves & other petitioners say they have taken much pains & been at [illegible] cost to find out lots in the wilderness and near Miller's River above Deerfield, [illegible] the Great River, they have found [illegible] hill in which are stones that are encouraging, by small trials made, do hope there is metal in them — intend to make further trials; pray Genl. Court to grant 1000 acres of land in addition to accommodate such as will be needed to carry on the work.

Mass. I p. 39

June 5. Magistrates consulted — No objection, concerned, but [illegible] land to be taken up within 2 miles of the hill, on E. side Con. River, the settled upon within 12 years.

Petition of 19 men of Westfield Feb. 1767 who had been engaged in a riot in the late turbulent times, viz. May 6. 1766 they assaulted Thos. Pratt, a deputy Sheriff, who was as they supposed, about to arrest one of their number. 5 of them number were fined 3 each at Londonderry at Northampton in Nov. 1766, they appeal to Supreme Court. They pray that the same mercy that has been extended to other offenders during the late confusions may be extended to them.

Israel Dewey, Thos. Dewey, Moses Noble, Mentus Smith, Goodenow were the 5. The others were John Noble, Joel Strong, Jonna Hayo, Gideon Ives, Ahiman Easton, Stephen Wilcox, Joseph Noble, Jos. Moor, Sam'l Johnson, Samuel Hare, Elnathan Baker, David Nasan, John Noble Jr. Daniel Ensign.

* Miller's River is here first named. Whiting's Hist. Worcester Co. p. 246 says it was "so called in consequence of a man named Miller, being drowned, towards a hundred years ago, in attempting to cross the river in his way to Northfield. He died about 1793.

Post Office. May 23. 1677 Merchants of Boston & others petitioned — they letters are frequently lost — request that G. Court would depute some fitt person to take in & convey letters according to directions. Recommend Richard Way.

G. Court grant petition, but appointed John Hayward May 28 1677. John Pynchon Jr signed the petition

Elisha Pomeroy, for Hampshire 1754

Wm Williams agent for sundry towns in Hampshire petitioned for a New County Dec. 1760 — enlarge great extent of the county — some are to travel 56 miles S.S.E. & N.N.W. to Court — western part suffers great hardships
Prays for divisions & setting off all westward Chesterfield, Northampton, New Hingham, Sunderland & Charlemont or by any other line thought best. — Prays & Law Stockbridge shire town, 2 Court there & 2 at Pontoosuck County. Superior Court & Court Sessions at present.

Miscellaneous

March 1761. Selectmen of Northampton, impowered by the town, made objections to the New County, as to the dividing line — say it will take in a considerable tract E. of No 4 adjacent to N. H. & Hatfield — Propose a line from N.W. corner of Blandford to S.E. corner of No 4, & running in E. line of No 4 to N.E. corner; thence direct to S.W. corner of Huntstown & thence as proposed — Wm Williams to N. Hampshire line

Committee reported as above to N.E. corner of No 4 — thence to S.W. corner of Charlemont, & on the West line of that town, & that course to N. H. line

That Sheffield be Shire town for the present — & Canaan in upper parish of S. & 2 at Pontoosuck

Act conformed to this.

Brookfield — petition May 1739.

Think shad would come up Chickopee River into their ponds, if not hindered by 2 or 3 large bars of Rocks across the river within Springfield. Pray for liberty to make a passage way for fish through said rocks, paying damages, if they do any.

Ordered notice.

Springfield, send a counter petition by Selectmen July 2 1739 — say several persons may be greatly damaged, who have mills on said bars.

Joseph Dwight of Brookfield pray that their petition may be revived March 1739-40

Estimate on opposite page — My Remarks &c. upon it

6 months is called 180 days — Estimate, am[oun]t for 180 days

3000 men 180 days make 540000 men 1 day

1636 66 Pork at 220 lbs each make 359920 lbs. and the 3000 men for 4 mon. 120 days make 360000 lbs or pounds

1227 66 Beef at 220 lbs each make 269940 lbs: and the 3000 men, 90 days, at 1½ lbs. day, make 270000 pounds.

48 21 X 112 make 539452 lbs bread (say near the 540000 days at 1.

16875 Gallons of Rum make exactly 540000. days or pills

4218 Bushels Pease & Beans make just 539904, a pint to a day

345 Cwt Sugar make 38640 lbs — 3000 men, 25¾ weeks, 1 lb a week = 38685 lbs

66¼ Cwt Ginger — just ¼ as much as Sugar.

690 Cwt Flour make 77250 lbs. 3000 men 25¾ weeks. 1 lb a week = 77250 lbs

1206 Bushels Indian Meal make 77184 pints — 3000 men 25¾ weeks, 1 pint a day 77250 lbs

9648 Gallons Molasses make 77184 pints — same " — same "

19300 lbs Butter make 772 C 0 0 lbs — same " — 4½ a week " ¼ lb

all things agree. His 180 days are called about 25¾ is 25⅔ weeks. They are 25⅝ weeks.

His flour like his pork, has 220 lbs to a barrel or 219 2/35 lbs.

His cattle make only 650 lbs beef in the barrel.

Lt Root at Westfield.

Sir I hope you are apprized of the mischief done at Northampton, upon the road, yesterday, near unto Joseph Bartletts house, about 4 score (or 4 & two to 1) rods from said house towards Northampton, which alarms us to be careful in going out, & I advise & order that you be very careful in your going out not to go near or further off from town with less in number than 12 or 15 men to guard, and before any work is done, to scout the woods round about the place where the workes done, before they go to work, and the guards & they watchful all the time they are out. Also give notice of this mischief to the Carters & guard coming from Hartford, that they see themselves well guarded with an addition of 6 men at least in addition to such escort men they now have, & so you supply the carters of your young men accordingly to prevent any further mischief as much as may be. Your humble Servt

Sam Partridge Cl.

John Root certified that he sent an addition of 6 men to Hatfield with the carters, viz David Allen, Jno Bush, Jonah Pixley, Thomas Selly Jno Cornes, Samuel Lewis, all of Westfield,

Bolltwood & Kellogg's Case — continued

Isaac Hubbard testified that he was at the house of Charles Wright when Bolltwood returned with the mare; & one mentioned how quick they had come from Sunderland; it was at the rate of 26 miles an hour, or about 4 miles in 10 minutes, the horse sweated & smoked exceedingly

Ebenezer Kellogg — says the witnesses were Capt. Nath. Coleman, Deac. Samuel Bodman & Mr. Jos. Billings — Says he heard Mrs. E. Billings, wife of Jos. Billings, say she thought Capt N. Coleman was prejudiced in favor of Bolltwood, for she heard him say he was glad he had one case more of Kellogg's for he believed this would do his business, & that they (Kellogg's) should not always think to rule as lord & king.

Ezekiel Kellogg — same testimony

March 12. 1749 — 50

Samuel Hawley — testified that Jos. Clary said they run the biggest half of the way from Sunderland to Charles Wright's — and mare was with foal. — J. Clary also said the mare was lame several times up the country —

Moses Hawley testified the same — & that the mare has been lame ever since she came home March 17. 1749

John Morton testified that mare was very lame after she came home — never lame before to his knowledge —

Sol. Bolltwood petitioned against the petition of E. Kellogg's March 1749-50. Says Kellogg is very litigious & troublesome

Hadley I. p. 8

In consideration whereof, the Court grants an addition over & above Mr Bradstreet 300 acres to his former 100 acres to Hadley. Denison 300 acres. They have liberty to take up their lands in any place on the west side of the river Connec. provided it be full 6 miles from the place now intended for Northampton meeting house upon a straight line or if they or either of them shall not accept it then land in that place then they or either of them may take it elsewhere in any place not appropriated to towns or persons; Mr Bradstreet to have the first choice. (Abridged some.

Daniel Denison's petition —

says he had 800 acres granted, upon his relinquishing his 500 acres to accommodate Hadley; at same time Mr Brad[street] had 1000 acres upon like considerations & the first choice; whereby Mr. D. D. has been hindered from improving his grant, viz. Mr B's being secured or in the first place. We have spent time & travel in viewing lands near Connecticut & elsewhere & in particular at Waranoke & upon Connecticut above Hadley, both of which are now petitioned for by Mr Bradstreet.

P. — that, leaving Waranoke to Mr B. he may [take] 500 acres of his 800, part at upper end of the plain described by Mr Bradstreet & up in lands adjoining Gr. River 6 miles from N. H. according to grant — & that said 500 acres may lie on the river one mile N. and by East & be made up upon a square line west & by north into the woods: & other 300 acres between Hadley & Hadley.

G. Court consented as to 300 acres — nothing said about the 500 acres. May 15. 1662

[Part of this in Mass. Rec. Vol. I. p. 329.]

Samuel Broadstreet, for his father's petition - refers to grant of 1000 acres May 30 1660 - he has chosen 500 acres at Waranoke on both sides of the river at Waranoke - and 500 acres on west side of Connecticut river between 5 & 6 miles in a straight line (it may be more) from the meetinghouse, being for the most part compassed about with the great brook, a long pond or ponds, & Coxe River

Requests a confirmation of these lands for his father.

Answered 1st that his father was to go 6 miles from the meetinghouse, but that he ought to have it in this place viz 500 acres, because it is 80 or 90 miles from said meetinghouse, the nearest way it can be ridden or gone on foot 2d that should the Newtown men prosecute him (against reason & equity he thinks) was little other than a good action. 3d some part of the land is undoubtedly 6 miles in a straight line from said meetinghouse & was accidentally that the remainder to 6 miles was put into the grant. 4th it is in the power of the Gen Court to grant all if they see fit & not prejudicial to the town that hath so large an extent on this side the river, it may appear that this 500 acres is but little to 7 or 80,000 acres what the town contains.

Magistrates granted the 500 acres at Waranoke as desired - as to the other 500 acres the Magistrates Judge meet that Mr Broadstreet & Major Gen. Denison have each 500 acres laid out in the places above desired, & that Mr B. have his choice of the 500 acre pieces, when laid out - as equally as may be. - May 15. 1662

Deputies did not consent - but said the Gentlemen might have their land, beginning full 6 miles from the M.H. meeting house in a straight line, as before ordered to Waranoco & is disposed of & satisfied unto & to be a plantation. May 15. 1662.

Mostly this in Mass. Col. Lands. p. 329.

Major G. Denison next proposed that his 500 acres near Hadley should begin at an oak tree & stake about 6 miles from N. H. meeting house at the S. E. end of a great plain near a swamp & to run in length upon a north & by east line one mile up the river Connecticut & from the river at both ends upon a square line W. 2 E. & by South, and west & by South from river into ye Country.

Deputies in reply, & grants his Petition, beginning at the tree & stake by a swamp, about 6 miles from N. H. meeting house (as some of Hadley declared to Deane Parker & others) May. D. is farm to begin at the tree & stake & be laid out a mile on the river &c. as he desires.

Bounds of Hadley on East side shall extend 5 miles from the meeting house place up the river & 3 miles down the river & from eastermost part of river 4 miles back into the country according to order of Court 11-3-1659.

Magistrates consented as to Maj. Denison's bounds on east side of river but west side of river is respited another time as to Mr. Stiles interest.

Deputies, seeing magistrates have not consented, cannot consent to their last return.

In August following at request of Capt Ashley and C.B. waited on the Indians down to Westfield and spent 10 days at their interpretor in adjusting the payment. In the year 1725 at request of same Committee. C.B. measured the distance from Hudsons river to Housatonnuck river & first made a journey from his house in Kinderhook to Albany about 20 miles or a surveyor went to Albany as his surveyor did not come & found some Gentlemen of New York, Gov. had granted Housatonnuck lands. & who had bribed surveyor not to serve; then went to Schenectady for a surveyor & engaged him, but he was bribed by same men & did not come. then went to Kingstown about 80 miles from Schenectady & procured a surveyor & run the line as above said.
In 1726 some people from Mass. who were settling on Housatonnuck lands under the Committee were molested & sued as trespassers by said Connecticut Patentees & lost their suit at Albany. - said C.B. gave bonds in payment of cost & damage and had much trouble, journies to Westfield & Albany.
In 1728. C.B. was requested by Capt Ashley to buy another tract of the Indians higher up the river — and as Indian owners lived at Susquehanna near 220 miles to the west, C.B sent a messenger to go & fetch said owners, which cost 40£ N.Y. money. In 1731 said owners came together & were entertained at the house of said C.B. at Kinderhook 17 days at his cost 31 in number, which Committee judged to be worth 50£ & agreed to give C.B. 200 acres for it at Housatonnuck, which has not been done. He paid £77.10s. out of his own money to discharge bonds. Has received nothing. Prays for recompense.
Committee report that he has been paid — He gave Capt Ashley a full discharge under his own hand 1739. - costs monies disbursed. Has not been paid for all services. Propose 200 acres and in full.
200 acres granted Jan 14. 1742-3.

p. 270 172 274 280. that within a few years about 200 families from Connecticut & New York have settled on the Crown lands West of Sheffield between Ridge and Taconick Mountains & more are coming. They are poor & their improvements undoubted. These lands ordered in 1744 contain 17052 acres exclusive of grants and about 20 miles long.

There is also a tract between Tackbridge & Pontoosuck of 9293 acres exclusive of grants

Suggests the expediency of selling these lands & settling good persons thereon.

Elisha Hawley's plan. The above number of acres includes all rivers & Ponds. Ye bounds the pond down [now Round pond] was to be estimated at 400 or 500 acres & a brook runs it into Westfield river.

The N. line of his plan (a continuation of the E. line of Northampton) runs W. 1° S. 1576 rods to S.W. corner of Andrews Town. West line runs South 2000 rods to the Northwest Corner of Blandford.

South line — runs west on Blandford N. line E. 18° 20' S. 630 rods to N.E. corner of Blandford — then runs on Westfield line S. 43. E. 1028 rods to S.W. corner of Northampton.

Westfield River — the East branch runs thro' the plan — a large branch comes in from the west & unites before it runs Blandford line — another branch comes from West & unites near Blandford line.

Middle of West line is "a large Mountain". further South "a great Swamp" & more South "lay mills". [Murrayfield now Norwich & Chester.

The Spoors say in May 1753 that their father John Spoor of New York province purchased of one Owen Indians about 22 years ago between 3 & 4000 acres of land west of Sheffield and bound 30 E. N.Y. Cor. & as it proved the land was in N.Y. & Mass accidently allowed our father but 600 acres of the land though he had 750 acres. We have been annexed to Sheffield & said title — are not so well off as they are. Each right 400 acres in Upper & Lower Sheffield cost each proprietor but 50/ per right. Spoors think they ought to have the whole purchase; say they settled & fought forward the settlement almost as early as any in Sheffield — own land & families on the lands. We were annexed to Upper Sheffield parish — have laid out and a tax towards minister & meeting house

Hadley 1. p. 55. Petition May 1754. Dated April 10, 1754

Says many years since he was admitted a settler with his father, Doct. John Barnard dec'd. right in upper Houssatonick river — and as the land we possessed for the Indians he relinquished his right at request of Committee. Johnston Ward, Oliver Partridge & Thos. Ingersoll C. & they agreed he should have an equivalent therefor viz 600 acres of Province land in Hampshire, which he laid out & located at Westfield Huntstown & adjoining Mayhew's farm, & presented a plan to the Committee, who promised a deed. but it was never done.

Prays confirmation of the 600 acres, & plan of which is enclosed sent, & has been known as Barnard's farm

Granted April 9 1757.

Eleazer Porter entered Feb 15. 1749-50 that Doct John Barnard of Hadley, deceased was originally admitted to a right in Upper Hous. & when the place came to be settled, Doct Barnard being dead, one of his sons was admitted in his room, viz John that he gave up his right above the mountains for the Indians, & he was to have an equivalent. I do not find that he ever had it.

John Barnard continued.

Matth. Kellogg / Hadley surveyed this 6000 acres May 17 1740. Parallelogram 420 by 230 rods. 4 sides of it are lines of Westfield town west of Hen. Stiles & H. Experiment. Mayhew N. other sides [illegible].

Madlm. p. 55 Aaron Cook, Enos Nash, Joseph Barnard and Bridget Burt stated their [illegible] lines, but as Barnard had done. They call Dea. John Barnard their father, & say he was admitted a settler at 9 per th. but died before affairs of township were settled, & brother John was admitted in his room, &c. March 1757.

Reads Manor - Committee, below, appointed 1755 p. 82 / to ascertain the bounds of Read's 10 000 acres of Equivalent lands, proceeded to survey June 1757 - find it interferes with Greenwich, and contains 11777 acres - propose new bounds, on Swift-river W. by Palmer & S. Palmer & Hardwick E. Hardwick and Greenwich N. viz. beginning at reputed N.E. corner said 10 000 acres, thence W. 14 S. 838 rods to a stake at lands of Robert Morton; then S. 155 rods to a pine tree being reputed line of Greenwich; then W. 37 S. 95 rods to oak stump supposed in Greenwich line then W. 14 S. 494 rods to a stake & stones on E. side Swift-river. These lines include 11093 acres which is 1093 acres allowance for sweag of chain which we think allowance enough.

Gen. Court did not accept - thought dispute boundary lines could be settled at common law. Petition dismissed 1759.

Robert Newins of Hartford was the petitioner May 1755. He says in 1716 Gov. Gov. Allen & Roger Wolcott & Gov. Ebenr Penny of Mass. surveyed & laid out 10 000 acres for party & is valid - that South side was first ascertained - that line to begin at Oak tree on E. side Swift river & thence run E. & by S. to Swift-river, & from said tree E. & by N. about a mile to Ware river, thence on same point 8 miles to red oak, about 18 rods S. of said Ware river - from thence south by line. - After this Josiah Pynchon Esq had 5000 acres laid out northward of said 10 000 acres which has been improved, being surveyed by your petitioner. In April last, inspite of Quabbin & of the 10 000 acres agreed upon a line between said towns different from original survey, which takes in part of said 5000 acres - & takes the 10 000 acres too much. Prays for Committee - one appointed which reports as above.

Gen. Ct. 8.

5.272 Joseph Lee who purchased 5850 acres called Miller's Plain, says 1765, that he found a number of persons settled on the tract prior to the sale, & on the best part of the land, who would neither purchase nor become tenants. In 1757 Court empowered N. Worthington to remove the settlers from the Province lands sold to said Lee & put him in possession. The settlers applied to Gen. Court but their petition was dismissed, & they were prevailed upon to give possession to your memorialist or tenants, in 1758.

Prays to be eased from paying interest on his bond.

Granted June 1765.

p 269 270 272 274 to 277 Committee appointed June 1755 to quiet claim to settlers, &c; viz Joseph Dwight John Choate & Joseph Hawley.

Now 1768 no report of said Committee appears on files or record of Gen. Court, & Gen Court ordered May 1767. that Jos. Hawley only survivor of Committee should report what had been done.

Joseph Hawley reported Dec 1767.

Committee went to [illegible] and in May 1755 — and quit claimed land to Benoni Palmeter, Moses Church Luke Noble, Simeon Noble Enoch Hinds, David Jewett Ebenezer Brunson. Jos & John Owen, Saml Sears and Saml Austin, Daniel Hinds, Wm Drake Ebenezer Smith all bonds or notes transmitted to Treasurer 1757. — next quit claimed two large tracts in June 1755 [illegible] papers executed in 1756, and I sent a bond of 100£ to Treasurer but he declined receiving it — giving a receipt. I gave it to Col. Worthington when the others were put in his hands to collect. It was against Jno Jewett, who was likely to fail. Worthington had it sued, got execution, put Jewett in jail and I am told is still in jail at Lt Barrington

Lands.

Hawley's report - pa. omitted on last page
Said land to 2 Companies. June 1755 but many of the companies failed of giving security so the instruments were not executed.

1755, June 7. Dwight & Hawley (Croatuk having gone home) agree with David Ingersol Esq. of Sheffield to release the right of the province to him, to a tract of land for 100£. The tract lay partly west of Housatonic & partly west of Sheffield land contains 1005 acres. The deed was not executed till July 1756 - Deed set follows this mark [illegible] on preceding page.

2 Phins Upham } of Brookfield proposed to purchase
Joseph Gilbert } same tract of land. March 1770
They say about 3629 acres, lying Wattington E. No 2 N. Becket S. Hartwood W. -

3 Benj. Cupper of Chesterfield March 1770 petitions to buy said land - mentions his great services & hardships the last war.

4 May 1771 Matt. Dwight of Belchertown petitions for a tract of land between Hartwood & No 2 about 4 miles long & 80 rods wide, running across hills, rocks & ledges, & no person in possession — some feasible land — is willing to give something for it.
June 1771 House voted he might have it by paying a fair price

[This tract of land must have been a part of Westfield, viz. the tract numbered 1. 2. 3. The last piece, No. 4. seems not to be the same; had only 640 acres.]

1845. Explanations from O. Baker Esq. The valuation begins at N. end of middle street. (Old West Street) it comes S. to David Blodget to where West Street separates on the right about — then crosses to East street — David Blodget was on E. Street — from here goes N. to end of E. Street. Then comes down to Solomon Bottwoods on hill & goes N. on that street, and the road to Sunderland (west street where there are 3) to the north end. This ends first Paper. on 2 2 pages names begin next S. of Doct. Parsons (who had Middle of Green) and goes to S. end of street. Then begins the E. Street at S. end at or near N. Dickinsons, & names go north to near Blodget. (Clapps were opposite the present E. meeting house. Then Simeon Clark was on side hill, on Hadley N. road — and west of Dr. Parsons. and the Warners were on or near the cross road from W. to E. Street. & Dr. Nathaniel Smith's east side of Green, N. of meeting house (on College Hill old mansion

Mills above
The 13ths were part of lower gristmill. I think Isaac Selden had 1/13 of corn mill 1764. valued at 10.10.0. John Dickinson 1762 had right in grist mill, which went to daughter Mary, who married Enos Smith, valued at 10.13.4. in 1762. Ends Smith has it above.
The 7ths & 14ths are upper Sawmill. The 10ths are lower sawmill, on Fort River, near lower gristmill.
David Smiths 1/13 in Gristmill called 13.6.8. Equal to £ 173.6.8 for the mill. 1300.0.T.

Of these, the following are not on Valuation of Granby, 1771. viz Joseph Hilliard who belongs to S. Hadley; William Dickinson, not found 1771; Gad Chapin not found; Benjamin Smith not found; John Marshall belonged to S. Hadley; Peter Domo. died 1763; Francis Newton gone; Samuel Chapin, gone; John Camp gone; Samuel Moody Jr had become Samuel Moody; John Moody Jr. had become John Moody; Ithamar Amidown gone. 46 have the mark ✓. 2 more were G. having lost the Jr. making 48; 10 were gone of whom some were dead.

Joseph Montague. on 1760, not 1762. Noah Clark on 1760, not on 1762
Elphalet Green — on do not " Israel Clark on 1760. not. "
Samuel Ayres — on do not " Waitstill Dickinson 1760 not "
Stephen Chapin on do not " John Hillyer " " "

The 58 and then 7 or 8 make almost all of Granby men 1762. James Smith was a baptist & did not act in parish matters I conclude, Saml & Eli Dickinson were not of age 1762 nor was Simeon Moody, nor E. Bartlett Jr. nor Enos Moody, nor the Prestons, nor the Ayres (except the father). Why Phinehas Smith did not act with Granby, does not appear; Martin Nash did not act. Perhaps the M. N. of 1771 was the son.

Simon Parsons & Selectmen of both towns measured same line Nov. 1772 — and their distances are the same except one is two rods less; the courses are different; & both towns are in one, viz N. 10° E. 307 rods (110+197=307 See Hadley 2. 145.

[Old measure p. 352. 7 miles 58 rods

When and to whom was the land N. of Mill river in Amherst granted? It was 380 rods wide at west end and extended east and, growing narrower, to within 50 or 60 rods of N.E. corner of Amherst p. 358

East line of Amherst.

In laying out Flat Hill 1784, the east line of Amherst extended north to the north line of the third division or east division, not far from 573 rods. to the N.E. corner. The upper lot is bounded east on town line & west on Mill river, & next lot S. has mill rights in pt. lot, and N.

p. 358 Third Division was 1971 rods at West end & 2051 rods at E. end. Add 573 rods at N. end, & the east line of Amherst was 2624 rods or 8 miles and 64 rods. It was longer because it was oblique. — On page 353, the east line is called 8 miles 38 rods.

Road Town or Shutesbury

This town when laid out in 1735 (Hyde 4. 152 is said to bound W. 500 rods on Hadley & Harvard or East Hadley; east of W. bound is Sunderland (now Leverett) 2640 rods. The part that touched Hadley was 590 rods west of Sunderland S.E. corner N. line 1051 rods. Has Equivalent land S. of Salem Township E. Province

Mass 4. 169 Partridges N. Line of Hadley 1739 was 4 miles 142 rods or 1422 rods. Dwights S. line of Sunderland in 1730 was 1960 rods, so only 538 rods longer than Hadley N. line.

Mass. 4. 168

East line of Hadley. North of the 3d Division, to N. E. corner is about 566 rods. (See Hadley 2 p. 100). So a little more than Shutesbury joins Hadley.

East Division, East side 1971 rods. add 80 rods for east side being more + 566 rods. and all is 2617 rods. This is too much. East line p 355 is 8 miles & 38 rods or 2598 rods. This is only 19 rods too much however. a trifle in so many lots.

p. 352 Kellogg's Mill. — Records say March 3. 1740:-

"Granted to Nathaniel Kellogg liberty to erect a Sawmill, on Mill River at the place called the biggest falls". Did not this refer to East Hadley? Yes.

1749. March voted to rebuild the bridge over Mill river in 3d precinct, or build it in some other place.
Had. 3. p. 338 | it was "near the Mill". Committee to decide where was best place. — Com. chosen March 1750.

1751. March Voted not to build a bridge over mill river
Had. 3. 338 | near Ephraim Kellogg's Mill

1752 Jany. Committee to view Mill River from
Had 3. 338 | Ephraim Kellogg's mill to the road below Clary's mill & report the most convenient place to build a bridge over said river, & most advantageous in regard to a highway which may be laid there about.

1752 March. Com reported, & town voted to erect a bridge
Had. 3 338 | over the river at the end of the street above Ephraim Kellogg's house. 3 men to effect the same at the cost of the town.

1745 Land laid laid out for 2d precinct, at N. end of second division in 3d precinct, 185 acres — begins at N.W. corner of Deac. Mattoons land & runs N. 15° E. 240 rods to Mill river, thence up river till it gets about 10 rods E. of Nathaniel Kellogg's
Hadley 2. p. 101 | Corn mill, then over the north bound, thence 30 rods
Hadley 3. 334 | *340 rods to Mattoons land; thence W. 170 N. 150 rods to first bound. [The land surveyed in width not over 10½ rods. Perhaps not 50 rods on the river. 290 rods by 10 make 185 acres.] There was a highway 4 rods wide through the tract — this must be added.

Also a tract of 35 acres lying Mill River N.W. Thomas Goodman S. highway E. begins at N.E. corner of Goodman land & runs N. 100 rods to mill river, down river. Goodmans N.E. corner it runs W. 140 rods to Mill A road 4 rods wide runs through it.

It seems a triangle on the river — S. line 140 rods, & East line 100 rods but river comes down into it, & makes it less than a triangle. If it was next to Thomas Goodman, he had probably purchased the piece 2 rods wide of the North's. See Hadley 2. p. 101

*. This 340 rods should 240 rods. I am confident. The west end of all the lots that joined this was less than 240 rods — apparently not over 220 rods. See Hadley 2. p. 101. If the east line was S. the north line on the river was much shorter than the South line on Mattoon. — The South Hadley land & Mattoon's line 150 + 145 = 295 rods for Mattoons S. line & the 40 rod highway east of it. How can it be more than 240 + 40 = 280?

Amherst

The town appointed a committee to dispose of the land in the town ways, or to prepare it for selling. The Com. reported at a meeting Jan. 14. 1788. said they had left the ways 6 rods wide between 1 and 2d Divisions, and between 2 & 3d D. except between 2 & 3; it is only 4 rods wide from Bay Road to North side of Stoughton Dickinson's Houselot; and except cut in places, the whole width is left for public use. Crossroads left 4 rods wide. The land against each mans lot is measured & appraised for the town to sell, if they see fit.

Some pieces were 12 & 14 rods wide, and from that down to 1 rod & to a point. The highway was already on a line of some land owners, the whole or part of the way. Some seem to have had grant before

Report of highway land, against many's land, to be sold from the Bay Road north between 2 & 3 Div. (the E. & West sides of the highway not distinguished from each other.

Simeon Dickinson lived when Judge Conkey.

Martin Smith a on Pelham Road.

Pelham Road, or East M. House afterwards.

David Blodget was a little north of E. M. House; and also Daniel Kellogg on West side of East street — large house now.

Jonathan Dickinson about then; Nathan Dickinson lived when John Dorrs does — built the house now there.

John Allston north or south — Gideon Dickinson, Hez. Belden & Reuben Dickinson, higher up, E. street.

Olum & Leash was near East M. H. — Noah Dickinson & Jesse Thomas Hastings 2 miles S. of East M. H. and not much between. Ebenr Williams was down some N. of present South M. house. Potter on a cross street — Nathaniel Coleman, near S. meeting house.

Timothy Green was S. of College — near the mill

Moses Dickinson & H. Franklin } near down end of E. Street.

Isaac Goddale on West Street

Formerly there were 5 or 6 houses from 20 to 40 rods E. of present East Street — old cellars still remaining. one in rear of Nathan Dickinsons (now Johns) on a rise of ground, some still north. One or two south of Pelham road. One long remained with a lane to it from E. Street. Lane is now a cross street, & there is a house there now.

Ebenr Dickinson 2. on Valuation was son of Ebenr 3d Jr. — The Ebenr Dickinson 3d was son of Nathan — removed to North end.

Amherst Encroaches on Roads.

Feb 1759. Daniel Kellogg, (at w/ Hadley, now of the new district, name not known – was complained of for erecting a wood mansion house, log shop and some fence upon the street between 2d and 3d Divisions of East Precinct.

Reuben Dickinson, complained of also, for house & fence in same street of E. Precinct now a district, name unknown

(Opposite) Sunderland Meeting House to Bay Road.

This new road in 1758 came down & crossed Mill river & came to Joseph Clary's land to the (cross) town highway. [Town highway means an old town road. Continued on South & some east to Clary's house and Elisha Ingrams house – on to Capt Smith's and Nathaniel Dickinson's houses – continued to town highway [between 1st & second Divisions] – then in highway S. 11° W. 174 rods, S. 5. Cross the bridge and on S. & some W. and Sorry E. thence leave town road & go into Eben Williams's land and on E & much S. to near Road's house to town highway. [This must be between 2d & 3d divisions.] Then S. & some East and East & some South, and S & some West. [an town road apparently]; leave town road and go on various course, South & some east to the Bay road – with from Clary's to town road near Isaac Goodale 3 rods. Thence to fort river bridge 10 rods, & to E. Williams land 4 rods; 3 rods wide to bay road, but 6 rods on the town road Damages allowed £ 17. 6. 8.

The diagonal road across first division must have been there before & had several houses on it. The road across middle division may be the one on plan p. 354 & may not. That across third division is not on the plan on page 355. This may be a new road.

Benjn Baker Sept 1858, says when he was young & formerly the house of his grandfather Elijah Baker, and the Gen. Allatoon's father stood on opposite sides of the street, where they are placed on the within plan. And this was the end of inhabitants on that road, & the land north was poor: when he was young, there were no houses for 3/4 of a mile N. of Elijah Baker's; the road then stopped & did not go to Mill river, but turned off each way, to the east & west, & then cross roads were laid out.

Opposite. Road in Amherst

1758. A road was laid from Sunderland meeting house to the Bay road, 2 miles east of Moses Smith's. This seems to be the diagonal road in Amherst across first & second divisions. It struck the Bay road near Belchertown line. On the succeeding plain, there is the diagonal road across the first division but not across the second. Perhaps the first was older than 1758.

Had 1758. Hadley was complained of and fined 40/- for bad
3. 54 roads. It was the Bay road.

1758 Moses Smith was complained of, & Nath'l Kellogg for fencing in part of the Bay road. They were ordered to remove their fences back. Moses Smith petitioned for alleviations & to be allowed to do what he had done.

1754 Road through Amherst to Hadwick through
Same Had. 3 p. 91 Pelham and Webbin & back to Chickopee through Cold Spring & South Hadley.
It began at upper end of pine plains in Hadley and ran to Hartling Stake & to the east end of Middle Division & on to Pelham &c
It did not follow the old path all the way to Amherst. This road then first became a county road perhaps - our old W. road to Amherst.
It went from Webbin through Cold Spring to Turkey hill & to Stephen Maples in S. H. and on to Chickopee

Plan of Amherst

I obtained an old plan of Amherst from Mr Simeon Clark of Amherst, a surveyor, but unfortunately the top or north part was all gone, and the South east part. On these pages is about 700 rods of the town, north of the meeting house or 710 rods, or 2 miles and 60 or 70 rods. The East & West street ends about 40 or 50 rods south of the N. end of this part of the plan — that was, the end of the original laying out, or that street, perhaps. The dotted lines seems to have been intended for the north & south line by compass, or varying 3 degrees from the east line. The scale of miles is 8⅓ inches to a mile, or 100 rods to an inch. The date is lost from the plan. Mr Clark thinks it was made in 1770 or 1776 by Josiah Chauncey Esq. It was when Amherst was a district, containing 14571 acres, as the plan says. The meeting house is about 75 rods below the cross roads.

Mr Clark says the west line is crooked or varies about a degree, one part from another, or more. The general course at present (1847) is S. 12° W. or N. 12° E. Lines vary a degree from this course. About two years since the East line was S. 2° E. or N. 2° W.

This plan was taken, I believe before the revolution, or about 1775. Perhaps it belonged to the controversy of 1773. See 106 page.

The west Street measures from the Bay Road to the meeting house, on this plan 10 inches or 1050 rods; from the meeting house to the N end of the plan preserved 7 inches or 700 rods. East may be a few rods more.

The East Street measures from the Bay road to the cross road or Pelham road 11½ inches or 1150 rods; from the S. side of the cross road to the end of the 20 rod street, on the plan, 550 rods or 5½ inches, making 1700 rods in all. West side of Street not quite so much. At the north end of this Street it is 2¼ inches or 225 rods to the east line of the town. At the Pelham Road it is 350 rods or 3½ inches to Pelham line from East Street. 6½ inches farther South at the cross road, it is 5 inches or 500 rods to Pelham line or Belchertown line. Many errors in the plan, names, &c

End of plan

8 miles + 38 rods.

Amherst East line — N. 2° W.

A House

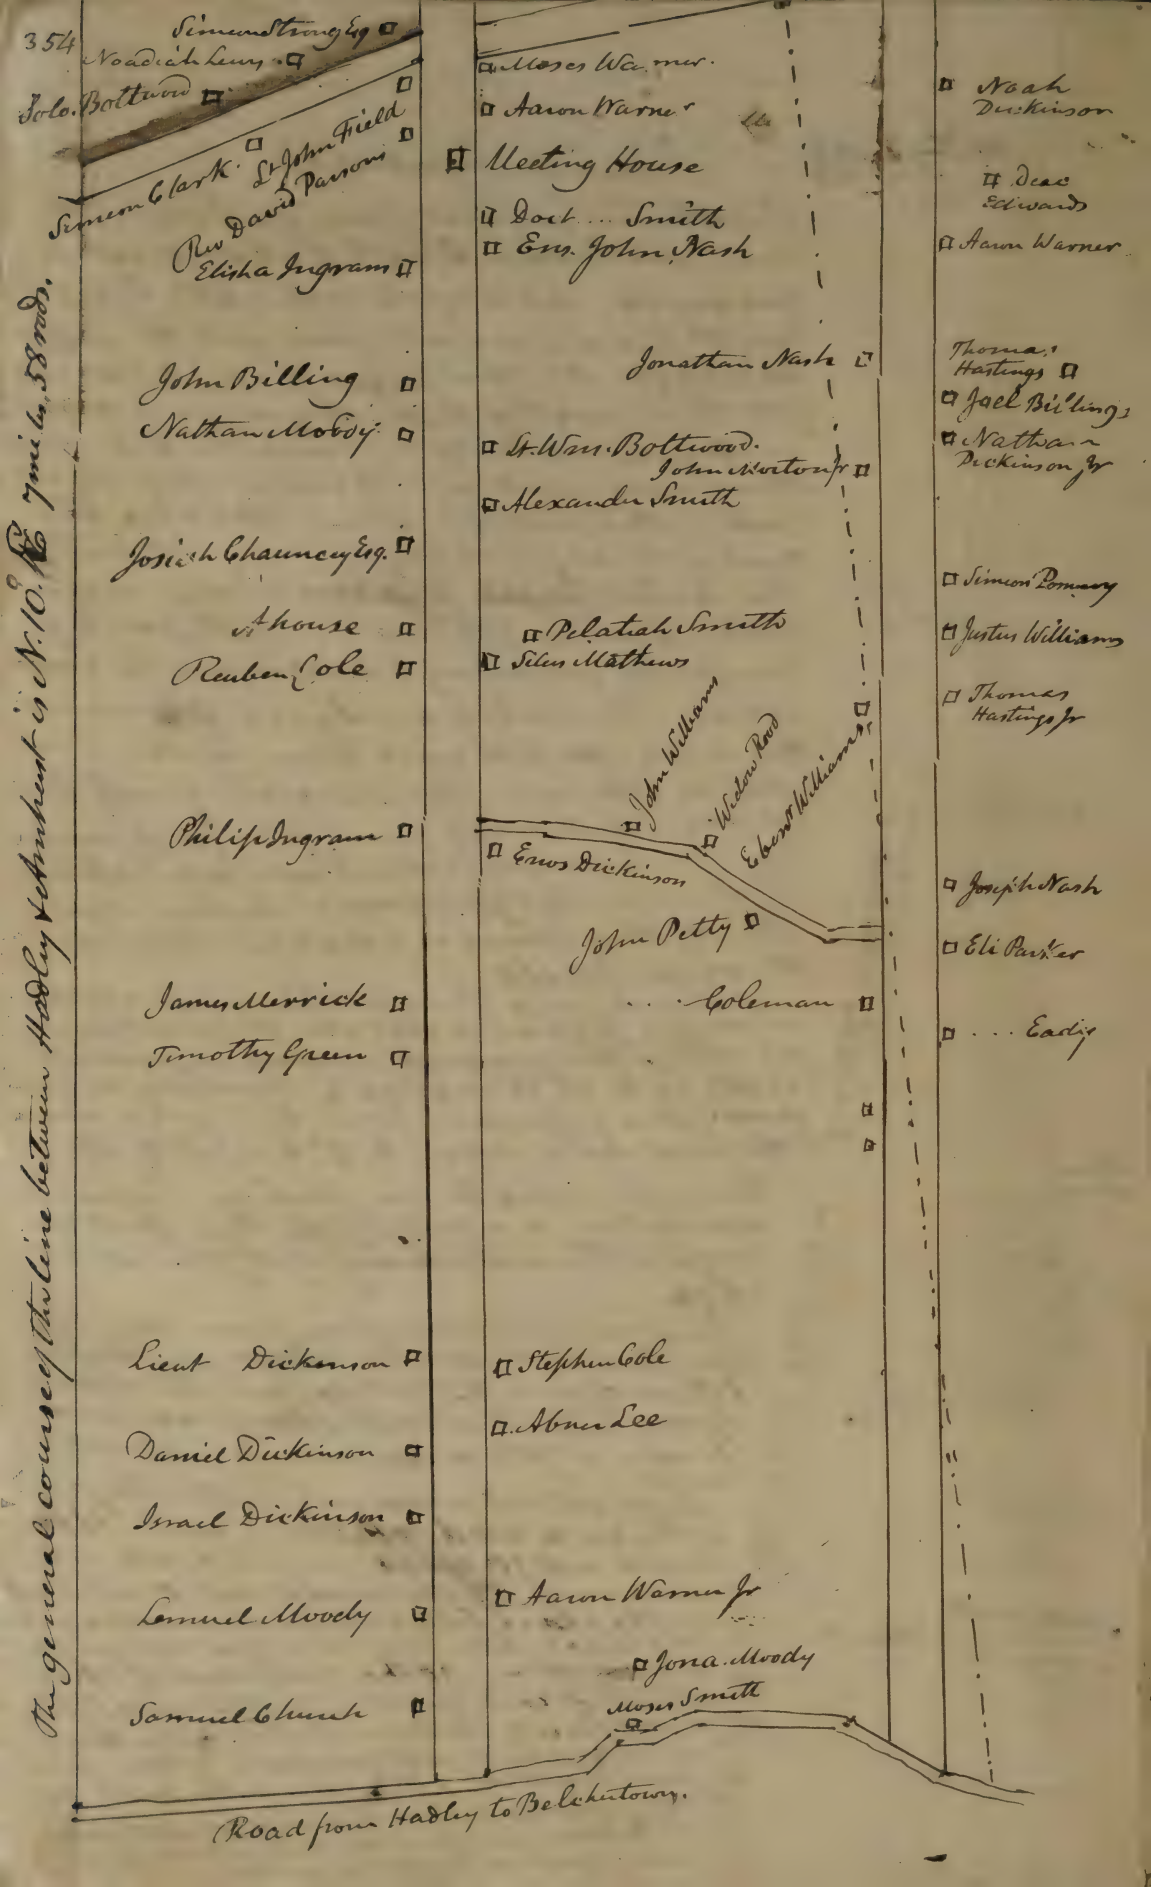
Martin Smith

Pelham Road



The general course of this line between Hadley & Amherst is N. 10° E. 7 mi. 4, 58 rods.

Plan of Amherst — continued.

This includes from the Meeting House to the Bay Road, 10½ inches, or 1050 rods, and a little more — about 3 miles and 90 rods or 100 rods. All on the road turning southerly from the present East parish meeting house are torn off and I believe one or two on the west side of the broad road below the cross road & perhaps more.

N. 3° W. 8 miles 38 rods

The East Tier of lots are 225 rods long between East Street & East line at N end of broad east street — Going south 6 inches or 600 rods, and the length of the lots is 3⅝ inches or 362½ rods. Going south another 6 inches or 600 rods, the lots are 5 inches long or 500 rods — 5 inches more, coming down to Bay road increases them about 1⅛ inch more, making 6⅛ inches or 612 rods. Probably they would measure 640 rods, or 2 miles at the Bay road or a little south of that, had they extended south. Each 600 rods north & south increases the lots about 1⅝ inch, or 162½ rods. If the east and west lines differ 13 degrees in 600 rods N. & S. would increase the length only 130 rods. Perhaps the difference is about 13½ degrees, & the increase in 600 rods, 135 rods. The degrees must be 13¾ to make 137½ rods.

The East division goes about 300 rods south of the middle division. This would reduce the length say 65 rods more, making the north lot 160 rods or ¼ mile long, which was its length.

The two streets are 12½ or 20 rods wide. The cross streets near the meeting house nearly as wide.

There must be errors in this plan. Old division lines on 1st 54 seem to cut right angles with the streets, or 8½ from 10° to 15° S — and the roads near meeting house and others about the same on cross roads.

East line from S.E. corner to opposite N. end of East Street is about 1845 rods in 1820

Amherst from State map – Sept 29. 1858
2½ miles to an inch.

The North end of Amherst measures as follows— m r
Original Amherst 13/16 of an inch (or 7/8). 2 miles 10 rods (or 2. 60
Addition from Hadly 5/16 of an inch (or 2/8). 250 rods — (or 200 rods)
Both make 1⅛ inch – or 2 miles, 260 rods.
Hadley N. end 11/16 inch; 550 rods, (or 3/4 inch, and 600 rods.
North end of Hadley & Amherst 1⅛ inch, 4 miles 220 rods (or
by the meadow, 50 rods less, or Hadley & Amh. 1 13/16 inch)

The bend in the Connecticut from S. to W. on N. of School meadow, and the S. end of the addition from Hadley to Amherst, & the South line of Shutesbury or N. of Pelham, are in a range, about 3/4 of an inch from N end of the two towns, or 1 mile 280 rods from the W. end.

Amherst at Brookfield road is 1½ inch, or 3 3/4 miles wide. — From the S. W. corner of Amherst, at this road, to the river west, against lower end of island, is 1 inch, or 2½ miles, making the width of the old town here 6¼ miles – has been more – some worn off *

Hadley 2. 159 Width of both towns, from Hockanum Ferry, on a little about it, in a line corresponding with the general range of Holyoke, is 2⅞ inches, or 7 miles 60 rods. – the line about two east, & some deg. S. of E. by compass. for such is the general range of Holyoke

From lower end of street in Hadley, across to Amherst east line, is 2½ inches or 6¼ miles — east by old compass.
See next page Of this Hadley has 1½ inch or 2 miles 260 rods; & Amherst 1⅜ inch, or 3 miles 140 rods. (or Hadley 1½ & Amherst 1⅛ – both 6 miles 130 rods.
From Hadley W. meeting house across both towns is about 20, or 25 rods less or 6 m. 200 rods. Hadley 1 3/16 inch 2 m. 310 r
From N. end of Hadley Street, across both towns is about 25 rods less. Hadley is less 1¼ inch or 3 miles 40 rods
Error 60 rods. Width of Hadley is 3/16 more at north end of street than at S. end or 100 rods. Cor to
Width of Hadley & Amherst is 6¼ miles & S. end of street and 50 rods more or 1/16 inch more at N. end of street. Can this be? (No it is 50 rods less.

Amherst, west side, is from Brookfield road to Mill river 2½ or 2 5/16 miles or 2000 rods or 2050 rods. (yet he layed out Amherst called only 1961 rods. What does this mean? meant that they made good measure. in 1703.

Amherst east line, from Brookfield road
p 344 to the N. E corner, is 3¼ inches or a trifle short — 8 miles and 40 rods, or 8 miles.

p 344 Mill river on map, crosses Amherst N. line about 50 or 60 rods west of N. E. corner of Amherst
Amherst at College or village is 1 3/16 inch wide or 2 miles 310 rods.

* Hadley W. Street continued down to here in same line, as this street would be 1/8 inch or 100 rods west of the east bank of river. Most of this or much of it has been worn off

Amherst East line (p. 352. 355) is N. 3° W. 8 miles + 38 rods same distance as on preceding page — from Brookfield road.

Amherst West line (p. 352 & 354) is N. 10° E. 7 miles 58 rods from Brookfield road. Can the difference be 300 rods?

The lines differed 13 degrees. Mr Clark made them differ 14 degrees in 1847.

The width of Amherst from Brookfield road to the north line is termed 500 rods — at road, 3 m. 240 rods at N. line 2 m. 60 rods — difference 1 m. 180 rods or 500 rods

The variation of a degree makes a rod in 60 rods length — in 8 miles would make $5\frac{1}{3} \times 8 = 42\frac{2}{3}$ rods — and in 13 degrees would make a difference of 555 rods in width. This is 55 rods too much.

In 6 miles, at upper end of East division, would make $5\frac{1}{3} \times 6 = 32$ rods — and in 13 degrees would make 416 rods in width (or 14 degrees 448.) — 2 miles 640 rods — out 416, leaves 224 rods, & this is the width at 1700 rods

p 353, above Brookfield. At 6 miles, or 1920 rods, the width seems half a mile, & the loss 1/2 mile, or 480 rods. To lose 480 rods would require 15 degrees variation for 6 miles. But it cannot be over 14 degrees. The distance however is about 60 rods over 6 miles & this would make a difference of 13 or 14 rods more.

These lines, distances &c. on state & county maps are not to be relied on. O Baker says it is, by measure 4 miles from G. C. Kellogg in Hadley to sheet five holes in Amherst add 120 rods to middle west street in Hadley, a mile between Street in Amherst, and width of Street, and 3/4 mile from East Street to Pelham line, and all is 6 miles 120 rods — in a straight line 6 miles. From meeting house to West line of Amherst is called a mile — leaving for Hadley 3 miles 120 rods width between houses (It is not a mile — perhaps 280 rods. Hadley may be 3 1/4 miles.

Had. 2. p. 147

Hadley — from State map. 2 1/2 miles to an inch North end for 1 mile 280 rods or 3/4 of an inch south of north line, is in lower part only 5/16 of an inch wide or 1/4 mile; and at N. end 11/16 of an inch wide or 1 mile 230 rods. ——— Hadley below the bend in rivers round School meadows, & below end of addition set off to Amherst, of 1 inch wide almost all the way down to S. W. corner of Amherst & further to top of Holyoke, or 2 1/2 miles. It is broader in three places — 1st — in the projection or bend at School meadow — 2. in the meadow & home lots, Wesley village 3. against Mt Holyoke.

Hadley Street to Amherst West & East Line — another measure

At bottom of Street to A. West line 1 inch or 2 miles 260 rods; thence to A. east line 1 1/16 inch or 3 miles 190 rods — both 6 miles 130 rods

At middle of Street to A. West line 1 1/8 + 1/32 inch or 2 miles 285 rods; thence to A. east line 1 5/16 inch or 3 miles, or 3 m. 140 rods — both 6 miles 105 rods.

At north end of Street to A. west line 1 3/16 inch, or 2 miles 310 rods; thence to A. east line 1 5/16 inch or 3 miles 90 rods — both 6 miles 80 rods.

In going from lower triangular end of Hadley Street, a mile, the distance to east point on Amherst east line, is increased 1/16 of an inch, or 50 rods. In going the mile, the distance to Amherst east line, is diminished 1 inch, some 3/4 of a mile, the distance to Amherst east line, is diminished 50 rods. Or Amherst width against Hadley Street is diminished 100 rods, but as Hadley gains 50, the loss on both is only 50 rods.

Sept 1764. Ephraim Kellogg must have been a trader in Amherst. Joseph Nash of South Hadley was a boatman and boated from Wethersfield to Job Alvord's Landing, 3 hhds Molasses, 1 hhd Rum and 1 hhd of Salt, for which the accustomed price was 9/. a hhd at least (worth money he was to have) Kellogg before owed Nash for 5 hhds. Nash sued him for 45/. and another 45/. But the jury brought in verdict for Kellogg.
This shows old prices of boating from Wethersfield to Alvord's landing — was 9/. a hhd probably 10/. in usual water pay.
